

Dress Code

Most schools have a uniform code which students are expected to follow. Uniform codes differ from school to school for example, some schools insist on their students wearing a blazer and tie. We believe that the dress code at Endeavour Academy is fair. Following a dress code creates a sense of community, and we ask our parents / carers to support the school by ensuring that their child comes to school following the correct dress code. There may be occasions when there is a good reason for a student not following the dress code. If this occurs parents / carers should provide a note to explain why. When there is to be any change to the dress code, the school promises to consult with parents / carers and allow plenty of time before the change is implemented.
